| 1. | QI Technologies Corporation | <ul style="list-style-type: none"> ▪ Installing internal network systems, broadcast antenna system and telecommunications network, security and alarm devices; ▪ Wired telecommunications activities, wireless telecommunications activities, providing internet service. | Lot U.14b-16a, Street No. 22, Tan Thuan Export Processing Zone, Tan Thuan Ward, Ho Chi Minh City, Vietnam | 30.00% | 30.00% |

1.7. Associates discontinuing the use of the equity method

| No. | Name | Operating industry | Address | Per cent capital | Per cent interest |
|-----|---|--|--|------------------|-------------------|
| 1. | DCT Technologies Solution Company Limited | Wholesale of computers, peripherals and software | 883 Le Hong Phong, Hoa Hung Ward, TP. Ho Chi Minh, Vietnam | 22.27% | 22.27% |

The Group discontinued the use of the equity method because the Group has yet to obtain the financial information and financial statements of the above associate for the nine-month period ended 31 December 2025.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

2. BASIS OF PREPARATION

2.1. Accounting standards, accounting system

The accompanying consolidated financial statements, expressed in Vietnamese Dong ("VND"), are prepared under the historical cost convention, and in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System, and prevailing accounting regulations in Vietnam.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

2.2. Forms of accounting records

The form of accounting records applied in the Group is the General Journal.

2.3. Financial year

K The Group's financial year is from 01 April of the previous year to 31 March of the following year.

2.4. Reporting and functional currency

The Group maintains its accounting records in VND.

2.5. Basis of consolidation

The consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and subsidiaries are presented as those of a single economic entity regardless of the legal structure of the entities. The financial statements of the subsidiaries have been prepared for the same financial year using uniform accounting policies to those used by the parent company.

A subsidiary is fully consolidated from the acquisition date on which the Group obtains control over the subsidiary until the date on which the parent ceases to control the subsidiary, unless control is intended to be temporary because the subsidiary is acquired and held exclusively with the intention of selling or disposing of it within twelve months.

Non-controlling interest recognition

Non-controlling interests in the net assets and net results of consolidated subsidiaries are shown separately in the consolidated statement of financial position and in the consolidated income statement.

The loss of a subsidiary is attributed to the non-controlling interests in proportion to their relative interests in the subsidiary even if this results in the non-controlling interests having a deficit balance.

Intra-group transactions elimination

All intra-group transactions, balances, income, and expenses - including unrealised intra-group profits or losses - are eliminated in full on consolidation. Unrealised losses resulting from intra-group transactions that are deducted in arriving at the carrying amount of assets are also eliminated unless the cost cannot be recovered.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3. SIGNIFICANT ACCOUNTING POLICIES

3.1. Foreign currencies

- The exchange rates applied in accounting is the actual exchange rate when the transaction incurred;
- The exchange rate applicable to asset recognition and re-evaluation is the foreign currency-buying rate;
- The exchange rate applicable to liability recognition and re-evaluation the foreign currency-selling rate;
- Exchange rates applicable to the other transactions are the foreign currency-buying rate/ the foreign currency-selling rate.

Transactions in foreign currencies are recorded, on initial recognition, in the reporting currency, by applying to the foreign currency amount the spot exchange rate between the reporting currency and the foreign currency at the date of the transaction. The exchange differences arising on the settlement of monetary items are recognised in profit or loss in the year in which they arise. At the end of the reporting period, monetary items excluding advances to suppliers, prepaid expenses, and unearned revenues, which are denominated in foreign currency, are reported using the closing rate and resultant exchange differences resulting from the reporting after offset are recognised in profit or loss in the year in which they arise.

3.2. Use of estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that impact the carrying value of certain assets and liabilities, contingent assets and liabilities reported in the notes at 31 December 2025 as well as revenues and expenses in the consolidated financial statements the six-month period ended 31 December 2025. Although these estimates are based on management's best knowledge of all relevant information available at the date when the consolidated financial statements are prepared, this does not prevent actual figures differing from estimates.

3.3. Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at bank, and current investments for a period not exceeding 3 months or highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash equivalents are defined the same as those under Accounting Standard "Statement of cash flows".

3.4. Financial investments

Equity investments in other entities

Investments in associates

Investments are classified as investments in associates when the Group directly or indirectly holds from 20% to under 50% of the voting shares of the investee without any other agreement.

Investments in associates are accounted for under the equity method. Under the equity method, on initial recognition the investment in an associate is recognised at cost. In case of investments of non-monetary assets, the cost of investments is recognised at the fair values of the assets as incurred. The carrying amount is increased or decreased to recognise the Group's share of profit or loss of the associate after the date of acquisition.

Distributions received from associates reduce the carrying amount of the investment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.4. Financial investments (continued)

Other investments

Investments classified as other investments are investments other than investments in subsidiaries, investments in joint ventures or investments on associates.

Other investments are accounted for under the cost method which comprise purchase prices plus (+) acquisition related costs (if any). In case of investments of non-monetary assets, the cost of investments is recognised at the fair values of the assets as incurred.

Recognition principles of provision for other financial investment impairment loss

For other investments

Provisions for impairment losses on equity investments in other entities are determined using fair values if the fair values can measure reliably. If the fair values cannot be measure reliably at the reporting date, provisions are measured on the basis of the investee's losses.

3.5. Account receivables

Recognition method

Account receivables are stated at the carrying amounts of trade receivables and other receivables less provisions for doubtful debts.

Provision for doubtful debts

As of the date of the consolidated financial statements, provisions for doubtful debts are recognised for past-due accounts receivable and for accounts receivable where circumstances indicate that they might be uncollectible or for uncollectible debts due to liquidation, bankruptcy, or similar difficulties.

The difference between the required balance and the existing balance of provision for doubtful debts is recorded as a general and administrative expense in the consolidated income statement.

3.6. Inventories

Inventory measurement

Inventories are measured at the lower of cost and net realisable value.

The costs of inventories shall comprise all costs of purchase, costs of conversion, and other costs incurred in bringing inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour, and attributable manufacturing overheads.

The costs of purchase comprise the purchase price, non-reimbursable taxes and duties, and transport, handling, and other costs directly attributable to the purchase. Trade discounts and sales rebates on substandard and obsolete goods purchased are deducted from the costs of purchase.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.6. Inventories (continued)

Method of accounting for inventories

Inventories are measured using the first-in, first-out method and are recorded under the perpetual inventory method.

Provision for decline in value of inventories

As of the date of the consolidated financial statements, provisions are recognised for obsolete, slow-moving, defective inventory, and for inventory stated at cost higher than net realisable value.

The difference between the required balance and the existing balance of the provision for a decline in value of inventories is included in cost of sales in the income statement.

Inventories are written down to net realizable value item by item. For services being rendered, provision is made in respect of each service for which a separate selling price is charged.

3.7. Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation.

Tangible fixed asset recognition

Tangible fixed assets are initially recognised at their cost. The cost of purchased tangible fixed assets comprises the purchase price and any directly attributable costs of bringing the assets to their present location and working condition for their intended use. Accessories added to fixed assets when purchased are recognised separately at their fair value and deducted from the historical cost of the respective tangible fixed assets.

The costs of tangible fixed assets constructed by contractors are the finalised costs of the construction, other directly related expenses and the registration fee (if any).

Depreciation and amortisation

The costs of fixed assets are depreciated on a straight-line method over their estimated useful lives.

The estimated useful lives are as follows:

| | |
|---------------------------|---------------|
| ▪ Buildings, structures | 15 – 40 years |
| ▪ Machinery and equipment | 02 – 08 years |
| ▪ Motor vehicles | 06 years |
| ▪ Office equipment | 03 years |

(See the next page)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.8. Intangible fixed assets

Intangible fixed assets are measured at cost less accumulated amortisation.

Intangible fixed asset recognition

Intangible fixed assets are initially recognised at their cost. The cost of an intangible fixed asset comprises the total amount of expense incurred by the Group to acquire an asset at the time the asset is put into operation for its intended use.

Accounting principles for intangible fixed assets

Computer software

Computer software is not an indispensable component of hardware and is recognised as an intangible asset and amortised over its useful life.

Land use rights

Land use rights are stated at their costs less accumulated amortisation. The Company's land use right pertains to a plot of land located at CT1AB Tower, VOV Me Tri Urban Area, Dai Mo Ward, Ha Noi City, Vietnam.

Indefinite land use rights are not amortised.

3.9. Leases

Lease classification

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Financial leases

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term at a constant periodic rate of interest on the remaining balance of the liability.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. Estimated depreciation period for machinery is from 3 to 4 years.

Operating leases

Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.10. Leases

Operating leases

Assets subject to operating leases are recognised in the consolidated statement of financial position according to the Group's asset classification pattern.

Initial direct costs to generate income from operating leases are recognised as expenses in the year as incurred or amortised over the lease term. Lease income from operating leases is recognised in the consolidated income statement on a straight-line basis over the lease term regardless of payment methods.

Depreciation of assets subject to operating leases is consistent with the depreciation policy of the lessor for similar assets.

3.11. Liabilities

Liabilities are classified into trade payables and other payables based on the following rules: Trade payables represent those arising from purchase and sale related transactions of goods, services or assets and the seller is independent of the buyer; the remaining payables are classified as other payables.

Liabilities are also classified according to the maturity date, the remaining term from the date of the consolidated financial statements, original currency, and each creditor.

Liabilities are recognised at no less than the payment obligation.

3.12. Owners' equity

The owners' contributed equity

The owners' contributed equity is recognised when contributed.

Share premiums

Share premiums are recognised from share issuance costs.

Dividends

Dividends are recognised as a liability at the date of declaring dividends.

Retained earnings

Net profit after income tax can be distributed to shareholders after the distribution is approved the General Annual Meeting of Shareholders and reserves are created in accordance with the Charter and legal regulations in Vietnam.

(See the next page)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.13. Revenue and other income

Revenue from selling goods

Revenue from selling goods is measured at the fair value of the consideration received or receivable. In most cases, revenue is recognised when transferring the risks and rewards of ownership to the buyer.

Revenue involving the rendering of services

Revenue of a transaction involving the rendering of services is recognised when the outcome of this transaction can be estimated reliably. When a transaction involving the rendering of services is attributable to several periods, each period's revenue is recognised by reference to the stage of completion at the end of the reporting period.

3.14. Cost of sales

Cost of sales and services provided represents total costs of goods, services, which are sold and rendered in the year in accordance with the matching principle.

3.15. Finance expense

Finance expenses represent all expenses incurred in the reporting year which mainly include borrowing costs and losses from exchange rates

3.16. Selling expense and general and administrative expense

Selling expenses represent expenses incurred during the process of selling products, goods and rendering services, which include payroll costs for selling employees' (salaries, wages, allowances, etc.); social insurance, health insurance, trade union fees and unemployment insurance; product warranty; contract implement; utility services (warranty, asset insurance, etc.) and sundry expenses.

General and administrative expenses represent common expenses, which include payroll costs for office employees (salaries, wages, allowances, etc.); social insurance, health insurance, trade union fees and unemployment insurance; stationery expenses, material expenses, depreciation expenses of fixed assets used for administration activities; land rental, license tax; provision for doubtful debts; utility services (electricity expenses, water expenses, phone, fax, warranty expenses, etc.); sundry expenses (entertainment, customer conference, etc.).

3.17. Taxation

Corporate income tax

Current corporate income tax expense

Current corporate income tax expense is determined on the basis of taxable income and the rate of corporate income tax (CIT) of the current year at 20%.

Deferred corporate income tax expense

Deferred corporate income tax expense is determined on the basis of the deductible temporary differences, taxable temporary differences and the estimated CIT rate that will be applied for the years that assets and liabilities will be recovered. The tax rates used will be the tax rates (and tax laws) that are in effect at the financial year end.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.17. Taxation (continued)

Deferred tax liability is recognised for all taxable temporary differences, unless:

- The deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither the accounting profit nor taxable profit (tax loss);
- All taxable temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint ventures when the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised, unless:

- The deferred tax asset arises from the initial recognition of an asset or liability in a transaction which at the time of transaction, affects neither accounting profit nor taxable profit (tax loss);
- The deferred tax assets for all deductible temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint ventures are only recognised when it is probable that the temporary difference will reverse in the foreseeable future; and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of a deferred tax asset shall be reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised. Any such reduction shall be reverted to the extent it becomes probable that sufficient taxable profit will be available.

Current and deferred tax are recognised as income or an expense and included in profit or loss for the year except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different year, directly in equity.

Deferred tax assets and deferred tax liabilities are only offset if, and only if, the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority and the Group intends to settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

SAOBACDAU TECHNOLOGIES CORPORATION AND ITS SUBSIDIARIES

Address: Lot U.14b – 16a, Street No. 22, Tan Thuan Export Processing Zones, Tan Thuan Ward, Ho Chi Minh City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3.17. Taxation (continued)

Tax incentive, tax exemption and reduction

The parent company – SaoBacDau Technologies Corporation has obtained the Certificate of Science and Technology Enterprise No. 60/DK-DNKHCN granted on 31 July 2018 by the Department of Science and Technology of Ho Chi Minh City. Accordingly, the parent company is agreed by a list of 16 goods products formed from scientific and technological results.

Pursuant to the Joint Circular No. 17/2012/TTLT-BKHCN-BTC-BNV dated 10 September 2012 by the Ministry of Science and Technology on Science and Technology enterprises, the Decree No. 13/2019/NĐ-CP dated 01 February 2019 of the Government, and the Circular No. 03/2021/TT-BTC dated 11 January 2021 of the Ministry of Finance, the Company will be exempted CIT for 4 years and 50% reduction of corporate income tax payable in 9 subsequent years since the Company has taxable income (financial year 2011). Accordingly, the parent company's entitlement to tax incentives has expired as from the financial year 2024.

Value added tax

The goods sold and services rendered by the Group are subject to value added tax at the following rates:

- Computer software: non-taxable;
- Equipment exported to non-tariff zones: 0%;
- Goods: 10%;
- Leasing services and other services: 10%.

For the period ended 30 June 2025 alone, in accordance with Decree 94/2023/NĐ-CP dated 28 December 2023 by the Government detailing the implementation of Resolution No. 110/2023/QH15 passed by the Standing Committee of the National Assembly dated 29 November 2023, Decree 72/2024/NĐ-CP dated 30 June 2024 by the Government detailing the implementation of Resolution No. 142/2024/QH15 passed by the Standing Committee of the National Assembly dated 29 June 2024, Decree 180/2024/NĐ-CP dated 31 December 2024 by the Government detailing the implementation of Resolution No. 174/2024/QH15 passed by the Standing Committee of the National Assembly dated 31 November 2024, Decree No. 174/2025/NĐ-CP dated 30 June 2025 by the Government detailing the implementation of the Resolution No. 204/2025/QH15 passed by the Standing Committee of the National Assembly dated 17 June 2025, the VAT rate of 8% is applicable to certain goods and services from 01 January 2024 to 31 December 2026.

Other taxes

Other taxes are applicable in accordance with the prevailing tax laws in Vietnam.

The tax reports of the companies in the Group will be inspected by the Tax Department. Application of the laws and regulations on tax to different transactions can be interpreted by many ways; therefore, the tax amounts presented in the consolidated financial statements can be amended in accordance with the Tax Department's final assessment for the companies.

3.18. Earnings per share

Basic earnings per share are calculated by dividing the net profit attributable to ordinary shareholders (after adjusted for bonus and welfare funds), by the weighted average number of ordinary shares outstanding during the year, excluding ordinary shares bought back by the Group and held as treasury shares.

SAOBACDAU TECHNOLOGIES CORPORATION AND ITS SUBSIDIARIES

Address: Lot U.14b – 16a, Street No. 22, Tan Thuan Export Processing Zones, Tan Thuan Ward, Ho Chi Minh City, Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**3.19. Diluted earnings per share**

Diluted earnings per share are calculated by dividing the net profit attributable to ordinary shareholders (after adjusted for bonus and welfare funds), by the weighted average number of ordinary shares outstanding during the year and total ordinary shares that would be issued on the conversion, excluding ordinary shares bought back by the Group and held as treasury shares.

3.20. Segment reporting

A segment is a distinguishable component of the Group that is engaged either in producing or providing related products or services (business segment), or in producing or providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

3.21. Related parties

Related parties are individuals or entities that have the ability, directly or indirectly through one or more intermediaries, to control the Group or are controlled by, or are subject to common control with the Group. Associates, individuals owning, directly or indirectly, an interest in the voting power of the Group that gives them significant influence over the Group, key management personnel, including directors and officers of the Group and close family members or associates of such individuals are also considered to be related parties.

Re: Explanation for the fluctuation in profit after corporate income tax by 10% or more at Item No. 60 in the Consolidated Income Statement for Q3 compared to the same period last year

To: Hanoi Stock Exchange

Sao Bac Dau Technologies Corporation (stock code: SBD) would like to provide an explanation for the fluctuation in profit after corporate income tax for Q3/2025 as presented in the Consolidated Income Statement, which has changed by 10% or more compared to the same period last year, as follows:

Unit: Million VND

| No. | Indicator | Q3/2025 | Q3/2024 | Difference | % Decrease |
|-----|--|---------|---------|------------|------------|
| 1 | Profit after corporate income tax (Item No. 60 – Statement of Profit or Loss) | (159.4) | 1,275.5 | (1,434.9) | 112.49 |

Explanation for the fluctuation:

The consolidated profit after corporate income tax in the Income Statement for the reporting period decreased compared to the same period last year due to the following reasons.

In Q3/2025, in accordance with the prudence principle applied in the preparation of financial statements, the Company's subsidiaries conducted reviews and assessments of overdue receivables and made provisions for operating losses arising from subsidiaries. This provisioning increased expenses, thereby resulting in a decrease in consolidated profit for Q3/2025 compared to the same period last year, with an absolute decrease of VND 1,434.9 million and a relative decrease of 112.49%.

| No. | Indicator | Accumulated 2025 | Accumulated 2024 | Difference | % Decrease |
|-----|--|------------------|------------------|------------|------------|
| 1 | Accumulated profit after corporate income tax (Item No. 60 – Statement of Profit or Loss) | 3,275.7 | 6,675.7 | (3,400.0) | 50.93 |

The accumulated consolidated profit after corporate income tax in the Income Statement for the reporting period decreased compared to the same period last year due to the consolidation of operating losses incurred by the Company's subsidiaries, which increased expenses and reduced accumulated consolidated profit, with an absolute decrease of VND 3,400.0 million and a relative decrease of 50.93%.

The above serves as the explanation for the fluctuation in profit after corporate income tax presented in the Consolidated Financial Statements for Q3/2025, specifically at the item in the Income Statement that has changed by 10% or more compared to the same period last year.

The Company hereby confirms that the information disclosed herein is true and accurate, and assumes full responsibility before the law for the contents of this disclosure.

Re: Explanation for the consolidated profit after corporate income tax turning from profit to loss in Q3/2025

To: Hanoi Stock Exchange

Sao Bac Dau Technologies Corporation (stock code: SBD) hereby provides an explanation for the fluctuation in consolidated profit after corporate income tax for Q3/2025 as presented in the Statement of Profit or Loss, whereby the net profit after corporate income tax in the reporting period is recorded as a loss, having changed from a profit in the same period of the previous year to a loss in the current period, as follows:

Unit: Million VND

| No. | Indicator | Q3/2025 | Q3/2024 | Difference | % Decrease |
|-----|--|---------|---------|------------|------------|
| 1 | Profit after corporate income tax (Item No. 60 – Statement of Profit or Loss) | (159.4) | 1,275.5 | (1,434.9) | 112.49 |

The consolidated profit after corporate income tax in the Statement of Profit or Loss for the reporting period was recorded as a loss and changed from a profit compared to the same period of the previous year due to operating losses incurred by the Company's subsidiaries. The consolidation of these losses caused the consolidated profit after tax for Q3/2025 to change from a profit in the same period of the previous year to a loss in the reporting period.

The above serves as the explanation for the fluctuation in consolidated profit after corporate income tax for Q3/2025 as presented in the Statement of Profit or Loss.

The Company hereby confirms that the information disclosed herein is true and accurate, and assumes full responsibility before the law for the contents of this disclosure.
